PROFESSIONAL SUMMARY

- Data Engineer with hands-on experience building production-ready ETL pipelines.
- Proficient in Apache Airflow, PostgreSQL, DuckDB, and Python, with strong expertise in data warehousing, dimensional modeling, and data integration.
- Certified Oracle Multicloud Architect, IBM Data Engineer, and Meta Database Engineer.
- Passionate about building scalable, reliable data solutions that turn raw data into actionable insights across transportation, finance, and e-commerce.

PROJECT EXPERIENCE

BatchETL Pipeline | Data Engineering Project

End-to-end ETL pipeline for NYC Taxi trip data, processing millions of records with automated data quality validation and real-time analytics.

- ETL pipeline: 2.96M rows, < 30s execution, 100% data quality, 95,099 outliers removed
- Data Warehouse: 12-column fact table, 7 indexes for query optimization
- Dashboard: 5 KPIs, 4 charts, 5 filters for real-time analytics
- Stack: Airflow, PostgreSQL, Streamlit, Docker

Uber Data Pipeline | Data Engineering Project

End-to-end ETL pipeline for NYC Uber/Taxi trip data with star schema data warehouse and interactive dashboard.

- ETL pipeline: Airflow orchestration with DuckDB data warehouse
- Star Schema: 4 dimension tables + 1 fact table
- Dashboard: 4 KPIs, 4 charts (Line, Bar, Pie, Scatter), 3 filters
- Stack: Airflow, DuckDB, Streamlit, Docker

Amazon Web Scraping | Data Extraction Project

Python-based web scraping pipeline for extracting product data from Amazon search results with automated data cleaning and export.

- Web scraper: Python with Requests + BeautifulSoup4
- Data points: 5 fields per product (Title, Price, Rating, Reviews, Availability)
- Performance: 95%+ success rate, ~2-5 seconds per product
- Stack: Python, BeautifulSoup, Requests, Pandas

Daily Expense Tracker | Full-Stack Application

Complete expense tracking application with dual interfaces (CLI + GUI), budget management, recurring expenses, and data visualization.

- Interfaces: CLI (12 menus) + GUI (6 tabs)
- Database: SQLite with 5 tables, 5 indexes
- Testing: 277 test cases, 100% pass rate
- Visualization: Pie charts + trend charts with Matplotlib
- Stack: Python, SQLite, Tkinter, Matplotlib

WORKING EXPERIENCE

BRI SD-WAN | Feb 2026 - July 2026

Level 2 Network Engineer

- Managed network data migration across 100+ sites
- Coordinated cross-functional teams to resolve data synchronization issues
- Documented network performance metrics for stakeholder reporting

SATU BENIH BOARDING SCHOOL | Mei 2025 - Feb 2026

Database Administrator & Computer Teacher

- Managed school databases (Dapodik, Sispena, BOS, ANBK)
- Performed backup and recovery and maintained data integrity
- Delivered Curriculum 2024 as Computer Teacher

BEJAGOO COFFEE& EATERY | June 2020 - Mar 2024

Business Manager

- Analyzed sales data to identify customer patterns
- Optimized pricing strategies based on data analysis
- Created real-time financial reports for owner decision-making

Soekarno-Hatta International Airport | Feb 2016 – May 2020

IT Terminal Service Support

- Maintained IT infrastructure for operational data systems across 3 terminals
- Coordinated with cross-functional teams to troubleshoot data system issues
- Ensured system availability and data reliability

TECHNICAL SKILLS

Cloud & Data Architecture

- Oracle Cloud Infrastructure (OCI), Multicloud Architecture, Star Schema, Data Warehouse Design, Dimensional Modeling, Data Lake

Data Engineering & Orchestration

- Apache Airflow, Docker Compose, ETL/ELT Pipelines, Python, Pandas, Data Integration

Databases

- PostgreSQL, MySQL, Oracle Autonomous DB, SQLite, DuckDB

AI & Machine Learning

- RAG (Retrieval-Augmented Generation), Vector Search, LLM, OCI Generative AI, Prompt Engineering

Visualization & Tools

- Streamlit, Plotly, Matplotlib, Git, GitHub, SQL, Jupyter Notebook

EDUCATION

Ristek Nusantara Jaya | 2015

Senior High School Equivalent

- *General Studies of Senior High School Equivalent.*

CERTIFICATION

Oracle | 2025

- *OCI Multicloud Architect Professional*
- *OCI Generative AI Professional*
- *AI Vector Search Certified Professional*
- *Autonomous Database Cloud Professional*
- *Cloud Database Services Professional*
- *Oracle Data Platform Foundations Associate*
- *OCI AI Foundations Associate*
- *OCI Foundations Associate*

IBM | 2025

- *IBM Data Engineering Professional Certificate*

Meta | 2025

- *MetaDatabase Engineer Professional Certificate*
